## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

**DETAILED ACTION**

***Information Disclosure Statement***

1. The references listed in the Information Disclosure Statement submitted on 11/21/2008 have been considered by the examiner (see attached PTO-1449).

***Response to Amendment***

2. This communication is responsive to the applicant's amendment filed on 07/30/2008. The applicant(s) amended claims 1, 4-5, 7-11, 13-17 and 24 (see the amendment: pages 3-4; also see Examiner's amendment below).

The examiner withdrew the previous claim rejection under 35 USC 112 1<sup>st</sup> and 2<sup>nd</sup>, because the applicant amended the corresponding claims.

The examiner withdrew the previous claim rejection under 35 USC 103, because the applicant amended the corresponding claim(s) (the amendment: pages 3-4; also Examiner's amendment below) and made proper argument (see Remarks: pages 12-13), which overcame the previous prior art rejection and provided considerable reason for allowance (also see the examiner's statement for allowance below).

***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. Authorization for this examiner's amendment was given in a telephone interview with the applicant's representative, Dermot Miller (58, 309), on 11/21/2008. The Examiner's Amendment is as following:

**In the specification** (refer to the amendment filed on **07/30/2008**):

Regarding paragraph [0032] (on page 2 of the amendment), lines 8-9 of the paragraph, after "of a variety of techniques described herein.", delete the sentence of "Such a storage medium may include any of a variety of memory devices well known in the computing arts.".

**In the claims** (refer to the amendment filed on **07/30/2008**):

**Claim 1**, line 3 of the claim, insert (restore) --storing the plurality of random noise samples in a lookup table;--;

line 7 of the claim, after "based on the plurality of random noise samples", insert -  
-of the lookup table--.

**Claim 7**, line 4 of the claim, insert (restore) --storing the plurality of random noise samples in a lookup table;-- ;

line 8 of the claim, after "based on the plurality of random noise samples", insert -  
-of the lookup table--.

**Claim 13**, line 3 of the claim, after "plurality of random samples", insert (restore) --and to store the plurality of random noise samples in a lookup table--.

**Claim 20**, line 4 of the claim, after "plurality of random samples", insert (restore) --and to store the plurality of random noise samples in a lookup table--.

-----End of Examiner's Amendment-----

*Allowable Subject Matter*

5. Claims 1-17, 19-14 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent **claims 1, 7, 15 and 20**, the instant application is directed to a method, storage medium and apparatus of implementation of encoding speech signal with generated excitation data. Each of the independent claims, combining some well known features in the art, identifies the uniquely distinct features of:

if the voice activity is not detected, encoding a first data frame of the signal to create a first non active voice frame, including

generating a first excitation based on the plurality of random noise samples of the lookup table, and

generating the first non active voice frame based on a scale factor and the first excitation; and

after encoding the first data frame of the signal, reusing the generated first excitation to encode each subsequent data frame of the signal until a voice activity of the signal is detected, each encoding of a respective subsequent data frame of the signal including

altering the scale factor based on any change in a noise condition of the signal, and

generating a respective non active voice frame based on the scale factor and the already generated first excitation of the first data frame.

6. The prior art of record, the speech coding standard ("ITU-T Recommendation G.729" and "G.729 Annex B", 1996) and THYSEN (US 6,813,602), provided numerous teachings and techniques for speech encoding/decoding, including analysis-by-synthesis model for speech coding, providing LPC (linear predictive coding) and LSP (line spectrum pairs) for processing CELP (code-excited linear-prediction) vocoder, generating/using adaptive codebook and fixed codebook (or lookup table) parameters for excitation signal, providing generated Gaussian samples as portion of excitation for noise signal frame/subframe, providing rescaled and updated excitation signal including computing gain in loop process for each frame/subframe, and providing voice activity detection and comfort noise generation; controlling and optimizing gain value (scale factor) based on noise level. However, the combined features stated above, are not anticipated by, nor made obvious over the prior art of the record.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
